EAST EUROPEAN ACCESSIONS INDEX

Vol. 9, No. 12 DECEMBER 1960

THE LIBRARY OF CONGRESS
WASHINGTON: 1961

Introduction

The *East European Accessions Index* is a monthly record of monographic publications issued after 1944 and periodical publications issued after 1950 which are currently received by the Library of Congress and, as indicated, by other American libraries. Imprints of the following countries as well as publications issued elsewhere in the languages of the countries listed:

Albania	Estonia	Poland
Bulgaria	Hungary	Rumania
Czechoslovakia	Latvia	Yugoslavia
	Lithuania	

Monographic and periodical publications are arranged by countries and grouped under 17 general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are included in the list of monographs. Each monograph is listed in the original language or in transliteration in accordance with the Library of Congress practice followed by a translation of the title. Each periodical is listed in the original language or in transliteration followed by a descriptive annotation in English including, as available, the name of the issuing body, language statement, frequency of publication, and history note. Periodical receipts are recorded by volume, number, and date. A listing of the contents (in English) is provided for selected periodicals in accordance with their importance and the availability of detail. Unless otherwise noted, all titles listed here are represented in the collections of the Library of Congress. Identifying symbols indicate which of the items are available in other libraries. Periodicals recommended to the National Library of Medicine (NLM) are indexed in its *Current List of Medical Literature*.

A subject index to monographic and periodical contents, and a list of periodical title abbreviations used therein, is provided.

Cumulative lists of East European periodical and serial publications received by the Library of Congress and other American libraries are included with the December issue of each volume. The list of periodical titles is maintained by a monthly supplement of current periodicals, with the supplements appearing during the first half of the year cumulated in a single supplement at the end of each volume. Symbols for libraries known to have current files of the periodicals and newspapers follow each title.

Certain forms of material from the East European area, such as textbooks below the university level, juvenile, and less important pamphlets, are not fully described by the Library of Congress nor are they included in the *Index*; however they are retained by the Library in groups arranged by subject and are available for reference use.

European Accessions Index is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Photocopies varies; subscription price, $[illegible] a year in the U. S., $[illegible] a year foreign.

PERIODICALS

Annual Cumulation

This list represents the receipts of the Library of Congress and other American libraries of post 1950 periodical titles published in the countries listed or published elsewhere in the languages of those countries. Because of the difficulties involved in distinguishing between periodicals and newspapers, the list of newspapers should also be consulted since it may contain titles which are sometimes classed as periodicals.

Annual Cumulation

This list represents the receipts of the Library of Congress and other American libraries of post 1944 newspaper titles published in the countries listed or published elsewhere in the languages of those countries. The date of the latest issue received by the Library of Congress is indicated. Transliterated titles are bracketed. Because of the difficulties involved in distinguishing between periodicals and newspapers, the list of periodicals should also be consulted since it may contain titles which are sometimes classed as newspapers.
